B. Armed ForcesI. USSR and "United" Forces (Warsaw Pact)Total StrengthPersonnel Exchange (GDR-USSR)

Between 26 and 28 Sep, 4 and 2 trains went from the GDR to Brest-Litovsk via Kuestrin and Frankfurt/Oder (?) respectively. According to number of axles and weight, 4 loaded and 2 empty trains were concerned.

25X1

25X1

On 1 Oct, appr 100 recruits from the USSR arrived in Dallgow and left for Loewen Kaserne in Doeberitz

25X1

Comment. First indications of beginning of personnel exchange. Date of beginning agrees with that in preceding years, except for 1957, when the exchange started only on 28 Oct. Recruits have also been observed at other GDR posts since late September.

25X1

II. GDR1. Recruiting and Replacements

- a. Since early July, an increasing number of 4-week courses for students have been held by various troop units of NVA ground forces. among other places also in Leipzig and Prora/Ruegen
- b. During his study period, each student has to participate in at least 2 courses, the first for basic training during the first to second study year and the second for special training during the third to fourth study year
- c. During a course in Prenzlau from 31 July to 28 August, participants received training on SPG-107s; firing with SPG-107s was observed at a training grounds

Comment. After military training courses for students of technical schools had been held in May through June, training concentrated on students of universities and academies during the main vacation period of July and August. It is, however, believed that it will not be possible to have all students of the latter category trained during so short a period.

25X1

There are already indications that the courses continued also after the end of the vacation period. This will undoubtedly result in interruptions and/or non-attendance of lectures.

Places mentioned are posts of training units of NVA ground forces.

- 2 -

Military training of students is conducted on the basis of a directive of the State Secretariat for Universities and Academies which largely corresponds to a decision by the SED Central Committee of March 1958. According to this decision, military training of students is considered part of their studies.

25X1

Students who have not yet participated in military training or have been deferred have to join in so-called "production commitments". Employment of females and male students not fit for military service is handled by the Ministry of the Interior together with the universities or academies concerned.

The prorector or deputy director, along with a commission of representatives of the organization concerned, is in charge of necessary organizational preparations and coordination of studies and military training. In addition, all students are constantly being urged to join the GST, as has already been reported.

C. ArmyI. USSRTraining (GDR)

Training activities of several units, particularly in the Altengrabow and Letzlinger Heide area, continued from late September to early October. Upon completion of the third exercise in the Altengrabow-Wiesenburg area, numerous return shipments of participating units to their posts were observed. Subsequent transfers and movements of columns for another fall maneuver at the end of the month concentrated on the area on either side of the Elbe River in the Burg - eastern portion Letzlinger Heide section. Transfers of tank, engr and AAA units from various army areas after 4 October were indicative of an assembling for a large-scale maneuver in the west and southwest portion of the GDR.

least 500 mot veh resting betw Nauen and  
Kyritz on either side of Highway No 5.  
Tank assembly in Kyritz [ ]

25X1

[ ] Comment. The transfer of these units in connection  
with simultaneous employment of numerous units of the  
Twenty-Fourth Air Army in Thuringia and the Magdeburg  
area tend to indicate that a large-scale maneuver started  
on 6 Oct which involved at least elms Eighth Gds Army  
(Mecz) and Second Gds Mecz Army (Tk). Assembly areas and  
location of beginning are still undetermined. There are  
several indications that the exercise developed from the  
Wittstock training grounds via the Elbe section on either  
side of Magdeburg as far as Thuringia.

25X1

Comment for Far Training

As expected, the fall maneuvers continued as in preceding  
years with the known crossing of the Elbe River between  
Burg and Letzlinger Heide by elms Third Shock Army (Mecz).  
While there are no indications of additional exercises in  
the area of the First Gds Mecz and the Twentieth Armies,  
the 1958 exercises seem to have culminated in a joint  
maneuver of the Eighth Gds Army (Mecz) and the Second Gds  
Mecz Army (Tk), possibly with elms Third Shock Army (Mecz)  
after 6 October. In 1957, the last fall maneuver, which  
involved elements of two armies, lasted from 7 to 10 Oct.  
With a view to the early beginning of the 1958 personnel  
exchange, it is assumed that the fall exercises in the GDR  
have been completed by all armies by mid-October.

D. Air ForceI. "GDR"Order of BattleDessau Airfield

Between 1 August and 20 September 1958, circuits were flown by IL-14s [redacted]

25X1

[redacted] No air activity was observed on 1, 3, 6, 10, and 11 August 1958 and on 1, 5, 6, 8, and 20 September 1958. Between 17 August and 27 August 1958, no observations were made. Mi-1s which had been constructed in Poland under license were delivered to Dessau in crates. Mi-4s which also arrived in crates from an u/i place were assembled and given black numbers in Dessau; some of them were transferred. On 15 September 1958, Dessau airfield was occupied by 9 IL-14s, 15 Mi-1s and 8 Mi-4s [redacted]

25X1

On 26 September 1958, the airfield was occupied by 24 or 25 Mi-1 or Mi-4 helicopters and about 7 IL-14s. On 18 September 1958, another 12 aircraft, presumably Yak-18s, were parked at the airfield. Since late August 1958, 10 white freight cars have been seen, but no loading or unloading procedures have been observed [redacted].

25X1

[redacted] Comment. Dessau airfield is still occupied as previously. The Yak-18s were presumably still at the airfield in connection with the Army Sports Festival which took place between 10 and 19 September 1958.

25X1

II. Poland1. Training of Troops

Prior to April 1957, the officers' pilot school No 5 was stationed at Radom-Sadkow (51 23 N/21 13 E) airfield. Commander of the school and airfield commander was Colonel Schwarz, a Russian wearing Polish uniform. A total of about 1,000 officers including officer candidates and 700 EM were stationed at the airfield. The school had the task of training officer candidates as fighter pilots in the course of 3 years without tactical training. For this purpose, the following airfields were available in addition to Radom-Sadkow:

Spala-Gl'innik (51 35 N/20 06 E) with a unit of jet aircraft;

Nowe Miasto (51 38 N/20 33E) with a unit of jet aircraft;

Grojek (51 53 N/20 56 E) with a squadron of propeller aircraft;

Przasnysz (53 00 N/20 55 E) with a squadron of propeller aircraft.

## 2. Logistics

In September 1958, a new airfield was under construction about 2.5 km south of the Piotrkow (51 24 N/19 41 E) railroad station, between this station and the Piotrkow - Czesochowa (50 48 N/19 07 E) road. [REDACTED] premilitary training is to be conducted at the airfield after its completion

F. Prenilitary and Paramilitary Organizations"GDR"Militia and Police TroopsGerman Border Police (DGP)

1. Between 25 Aug and 25 Sep, a training course for chemical defense was held by the 4th Bn of Border Bereitschaft (GB) Oachersleben. GB Salzwedel had to detach to this course each one private of each battalion and company [redacted]

25X1

[redacted] Comment. This was presumably a course compulsory for all GBs subordinate to Brig Magdeburg. [redacted]

25X1

25X1

2. On 14 September, FDJ members from the ranks of the DGP at the High Command of the DGP issued a proclamation asking young Socialists to stay with the DGP beyond the regular term of service (3 years) until at least 1961. All FDJ members following this challenge will be entered in the "Book of Honour" of the FDJ organization within the DGP [redacted].

25X1

[redacted] Comment. This means of "Socialist competition" which represents one of the "final conclusions" of the resolutions of the Fifth Party Congress is certainly aiming at a maintaining of the present personnel strength of the DGP, at least for some time.

25X1

3. On 24 September, the Commander of the DGP, Maj Gen Ludwig, awarded two prizes each of 2,000 DME for the invention of a border signal installation by means of which a border sector of up to 8 km length could be controlled. The indicator, which was located in the company billets, showed the point of a border crossing with a 250-meter accuracy [redacted].

25X1

4. Since Nov 1957, a troop unit which included 1 to 2 companies with T-34/85s has been stationed in Bad Blankenburg [redacted]

25X1

[redacted] Comment. Training Bereitschaft Dittrichshuette [redacted] and Heavy Battalion Rudolstadt [redacted] are carried in the area of the 4th Brig Rudolstadt. Type and subordination of the abovementioned unit cannot be determined. It is, however, worth noting that the unit is equipped with T-34/85s. This is the first observation of such an equipment with GP units:
